How to Check your Chromebook for Updates and Update if Needed

First Click on the three dots in the upper right hand corner of Chrome below the X. If there is an Exclamation Point or Up Arrow then your Chromebook is trying to tell you that you have updates. If you see the dots that does not mean you don't have updates, the up arrow or exclamation point mean you are multiple updates out of date.

After clicking on the three dots, exclamation point, or up arrow scroll down the drop down menu to Help and in the next pop-out menu select "About Chrome"

If your device is up to date it will state that Google Chrome is up to date.

It will also provide a version number. This number can be important when troubleshooting issues. If the Tech Department asks what version of Chrome you are using this is how you would find that number.
