**CLINTON COMMUNITY SCHOOL DISTRICT  
Campus-Wide Facilities Assessment Report to Board of Education**

**CCSD Board to Receive Findings from Facilities Assessment on Monday, December 4, 2017**

Staff and District Residents Encouraged to Attend - 6:30 p.m. at Clinton Middle School Cafeteria

**Clinton, WI** – The Clinton Community School District (CCSD) initiated a campus-wide facilities master planning process earlier in 2017 to evaluate the District’s facilities. This work began with a comprehensive assessment this fall of all facilities and sites to identify existing conditions and document needs for upgrades, repairs, or replacement of failing systems or structures.

Eppstein Uhen Architects (EUA), the firm hired to complete this assessment and support the District with long-term facilities planning, will share a summary of their findings with the School Board, district administration, staff and community on **Monday, December 4, 2017 at 6:30 p.m. in the Clinton Middle School cafeteria**. All interested district residents and staff are invited to attend and learn more about the current state of Clinton school facilities.

The Facilities Assessment Report includes an architectural review of building conditions; evaluation of mechanical, electrical and plumbing systems; overview of ADA (Americans with Disabilities Act) accessibility, safety and security; and building/site capacity. In addition, a utilization study was conducted to evaluate how space is used, and a separate review specifically focused of how the District’s learning environments support today’s instructional practices district-wide. The full report, as well as the summary presentation, will be posted to the District website and a hard copy of the report will also be available for public review in the District Office following the School Board meeting.

Once the findings have been shared with the School Board, administration, and the community, the construction management firm, J.P. Cullen, will begin establishing preliminary cost estimates associated with the items identified within the facilities assessment to support future prioritization and option development. As work continues, the District will offer numerous opportunities for district stakeholders to be involved in the evaluation and discussion of immediate needs and potential long-term solutions.

For additional information, please contact CCSD District Administrator Jim Brewer at [jibrewer@clintonwis.com](mailto:jibrewer@clintonwis.com) or visit the district website at <http://www.clinton.k12.wi.us/district/facilitiesplanning.cfm>.
